Outreach

Praise the Lord for the outreach that we had last week! The Lord blessed it so much. Though it would be wrong to say that it was only the last week that the Lord did this special work. One thing becomes very clear to me - He is working in people's hearts all the time. Even when I can't see that.

The team from various churches of Pennsylvania, Florida, Oklahoma and California came to Kaluga last Wednesday. Faithful Taylor family came over again as Sorrow Underfoot band.

We spent the first day on the streets inviting, meeting people and playing music. Next two days - Friday and Saturday on the streets again during the day, and concerts at night.

Time on the streets was great. I had good conversations with people. But the nights were even better. The Lord brought so many people to the concerts. Most of them stayed and listened carefully when I preached about Jesus. After the concerts we had many opportunities to share about Christ. People stayed to meet and talk to us.

Please pray for those that came to faith in Jesus, that they would start following Him. Pray that they would join a fellowship - this part is a big struggle for kids usually.

As a follow up, we are planning a little picnic next Saturday. Pray that new people would come. Pray for us too - that the Lord uses us to minister and to help them grow.

Also pray for future outreaches. We are praying about an outreach to college community with professor from Oklahoma. Also local basketball teams are very interested in playing with American christian basketball teams. We already did an outreach through bb two years ago. In 2010 we are planning on another outreach in July.
